(Record of item checked above)

TO: LEON F. ACIERTO
ENGINEERING SECTION

FROM: MELINDA BECKER
OEPA- NEDO

DATE Aug. 18, 1980

TIME PM

SUBJECT HUKILL CHEMICAL CO., BEDFORD, OHIO

SUMMARY OF COMMUNICATION

- Melinda called to inform ^{me} of recent developments as follows:
- OEPA met with company on 7/30/80 to cover loose ends of F&D.
 - Outfall 001 tie-in 7/9/80. Walton Hills STP to date has not reported any problem of upset.
 - Company did some more excavation; more leachate came out (soil moist)
 - Company to construct:
 - a) Leachate collection system
 - b) Spill prevention basin - pump out spill from basin to outfall 001.
 - Outfall 002 violations Feb. → May 1980: BOD, TOC. Die tested floor drain - not to 002. Roof drain to 002; This outfall is supposed to be only storm run-off w/c is not typical of the high BOD & TOC values. Flow only a trickle, company to continue to monitor.
 - Air problems - none that Melinda knows about

CONCLUSIONS, ACTION TAKEN OR REQUIRED

- Groundwater contamination - low potential ~~due to~~ per geologist of OEPA.

Melinda will keep us informed of further develop
